DETAILED ACTION

Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record, including the previously cited Pease, Sr. (US 2709317) reference, does not disclose anchoring means at the base of the device with means for sealing and unsealing the open upper surface of the device and further comprising means for anchoring the lowering means into the containment member. It is this specific combination and orientation of elements which define the immediate invention over the prior art, including the Pease, Sr. reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
